

Mark -

"We want to extend a sincere thank you for the tremendous addition you made to our two Joint Leadership Safety Summits! Your message reached over 400 union field employees, union representatives and company supervision and managers. While we've had excellent reception to our safety summits over the years, this summit was rated the best we've ever had thanks to your participation!

Your message on teamwork and taking things to the next level through your 4 principles certainly struck a cord. Your CD has been utilized in other team building sessions; we frequently still hear in the field "I've got your back"; and comments from union field employees have continued to be positive with one lineworker stating "This was the best motivational message I've heard in the past 25 years".

You've made a tremendous difference and we're hopeful to make continuing strides in improving our safety experience due to your influence and message. Thank you again! "

Sincerely,

Roger Castles
